

# Confined Space Entry Awareness

Confined space awareness is essential for all personnel involved with any aspect of work that will be carried out within an enclosed environment. This course is designed to deliver knowledge, understanding and respect for the dangers of confined spaces, the equipment required and other aspects of awareness within hazardous confined environments.

Instructed by an expert tutor in confined space awareness, this course ensures that anyone who comes into contact with a confined space (either directly or indirectly) is fully able to deal with the situation safely and competently.

## Who is the Course Suitable For?

This course is suitable for those who will be entering low risk confined spaces but don't require the use of breathing apparatus in order to do so.

It is suitable for all industries, including water, utilities, construction, industrial and chemical applications.

## What is Covered in the Course?

This training covers all the requirements of the Confined Spaces Regulations 1997 to give delegates the ability to understand the importance/dangers of confined spaces and associated factors.

### Modules include:

- Outcomes of the Confined Spaces Regulations 1997,
- The controls required for safe work in low risk confined spaces,
- Problem atmospheres, their occurrence, detection and monitoring,
- Physiological effects of problem atmospheres,
- Safe entry procedures and safe systems of work,
- Emergency procedures and responding to alarms,
- Knowledge and skill exercises for entering, working and exiting low risk confined spaces.

### Include Your Company Procedures

We can provide bespoke modules designed in combination with your unique business safety protocols. Please contact us directly for more information on tailoring your training course.

## Did You Know?

This course gives candidates the necessary skills to enter low risk confined spaces without breathing apparatus.

## One Day Course

### Bespoke Training Available

**Course Code:** CONFAWARE

**Location:** Stockton, Watford (London), Onsite

# Confined Space Entry Awareness

## One Day Course

**Bespoke Training Available**

**Location:** Stockton, Watford (London), Onsite

### What Can You Expect To Learn?

All delegates will leave with a greater understanding of confined spaces, including:

- What a confined space is and exactly how they can be identified,
- Awareness of the importance of confined space legislation and how to remain in compliance with rules and regulations,
- The different classifications given to confined spaces depending on their level of hazard,
- The consequences of failure to safely provide a confined space safety solution,
- Understanding the responsibility of individual team members when working with confined spaces,
- Reacting to accidents and emergencies,
- An understanding of equipment used within confined spaces and its importance.

### Are There Any Entry Requirements?

No prior knowledge of confined space is required for this course.

### What Are The Reading Requirements?

There is no prior reading required.

### Final Thought

If you are interested in this course and would like to find out more about the content, other courses on offer or would like to find out more information about PASS itself and the facilities available to you, contact the training centre where an advisor will be happy to answer all your questions.
