

# Confined Space Entry/Escape & Working Breathing Apparatus

Ideal for any person who needs to develop the essential underpinning skills and knowledge required to plan, enter, work and exit confined spaces including via a vertical shaft and where escape and working apparatus are part of the planned means of self-rescue.

Full breathing equipment will be provided as part of this course; candidates are expected to bring their own safety footwear, waterproof clothing, hard hat and working gloves for practical exercises.

## Who is the Course Suitable For?

This course is suitable for those who will be entering confined spaces and require the use of breathing apparatus in order to do so.

Due to the physically demanding nature of this course candidates must be deemed medically suited for the course by a medical practitioner.

## What is Covered in the Course?

The course covers the following modules:

- Outcomes of the Confined Space Regulations 1997,
- Personal Protection and Hygiene Requirements,
- Specified Risks and their Control,
- Risk Assessing Residual Hazards,
- Types of gaseous atmosphere, portable gas monitoring equipment and its uses,
- Operation of safe systems of work,
- Use of permit-to-work control measures,
- The use of harnesses, tripods/man-riding winches, fall arrests and safety lines,
- Use of escape set breathing apparatus,
- Use of short duration working breathing apparatus,
- Safe entry, working and exiting procedures in and around confined spaces,
- Self-rescue procedures,
- Knowledge and skill exercises for planning, ent.
